Irving Craig Ceniza Real

0933-055-3684 / 0952-489-5898 • bingz.real@gmail.com

Overview:

- Web Developer of 2 years experience building a scalable Web Application using Angular, Node.js, and mySQL by developing a real-time bus tracking system here in Cebu to improve operations throughout the transport agencies.
- Improved a healthcare platform system from a reputable medical institution by implementing a Push notifications feature for the doctors and patients to receive updates.
- Motivated to learn from senior engineers to advance my career as a software engineer.

Skills

- Front-end Development (Javascript, Typescript, Typescript Angular and AngularJS, React, Svelte 5, jQuery, Sass, TailwindCSS, Bootstrap, DaisyUI)
- Back-end Development (Nodejs, Express, Golang)
- Software Development (C#, Java)
- Database Management (MySQL, PostgreSQL)
- Version Controls (Git)
- Development Tools (VSCode, Dbeaver, Insomnia/Postman, Docker)
- Computer Hardware and Software Installation/Troubleshooting
- Electrical Wiring Installation
- Network Cabling Installation and Configuration
- Microsoft Office (Word, Excel, Powerpoint, Access)
- Adobe Creative (Lightroom, Photoshop, Premiere)

Irving Craig Ceniza Real

Work Experience

Fullstack Web Developer - GoodApps Inc.   Nov 2022 **–** Apr 2025
Kamputhaw, Cebu City, Cebu, Philippines

- Maintain current state of the company's web pages
- Develop new features to be implemented to their existing system
- Configure changes on the webpage platform
- Optimizing Legacy codebase and improve the performance in their systems

Achievements:
- Successfully developed a web application that tracks public transportation to check revenues, location, and historical archives. Different transportation agencies were able to benefit from using the portal to relay the employees' performance and status of their generated revenue.
- Develop a web application for the public users (*ie*. passengers) to check the buses' current locations. This can aid users to estimate the buses' arrival destination, provide route directions, mark points of interests, and provide emergency contact information.
- Contributed from a reputable institution to implement a push notification feature that allows users to receive the latest updates on their mobile devices. This can benefit both doctors and patients on receiving their lab reports and inquiries.
